The Citizens of the Republic of Saturn establish this Constitution as a basis to preserve and extend our culture, history, laws, and community. It is the design of the framers of this Constitution to provide the Citizens of Saturn opportunity and protection so that they may prosper and grow as players. Within Saturn's sphere of influence this Constitution shall reign supreme to any other law, agreement, or treaty.

## II. Citizenship

There will be three tiers of citizenry in Saturn. Citizenship can be stripped from a player via a 2/3 majority vote in the Senate or a unanimous vote between the President, Secretary of the Interior, Secretary of Defense. Each tier of citizenship will have the following rights and requirements in addition to any right or requirement of the tier below it:

### (a) Guest

1. Citizens are guaranteed the right to free and fair elections, exempt from bribery or intimidation.
2. In all criminal prosecutions, the accused shall be entitled to a speedy, fair, and public trial. Furthermore, they are guaranteed the right to legal counsel either selected by the accused or provided by the state. The accused may be tried for each crime once and must be notified of what crimes they are being accused of.
3. Citizens are free to peacefully assemble in community bases or private bases with the consent of the owner.
4. Citizens shall enjoy the right to practice religion, free of persecution from the state so long as said religion does not infringe upon the rights and wellbeing of others.
5. Citizens are guaranteed freedom from slavery, indentured servitude, or involuntary servitude.

## IV. Government

Upon ratification of this Constitution, an election will be immediately held for the Senate. Following the election, the newly elected Senate shall elect the President and Speaker of the Senate and confirm the President's nominees for Secretary of Defense and Secretary of the Interior. This government will serve the People of Saturn until either the end of the server, a new constitution is ratified, or the active population drops below six players of Citizen rank or higher. Should the population drop to these levels, this constitution may be disregarded until such a time as the population has recovered.

Leading the Senate will be the Speaker of the Senate. Both parties must agree to the new Senate size for it to be ratified.

Senators will be permitted to do the following actions:

1. Propose a bill, action, treaty, or amendment. A bill is an alteration, creation, or deletion of a law which must be recorded in the Saturnian Code of Laws. An amendment is a change to the constitution. An action is something that the State of Saturn must attempt to do. An example of an action would be declaring war. A treaty would be an agreement between Saturn and a foreign power or powers.
2. Second a bill or action: For a bill or action to be debated or voted on in the Senate, a Senator who did not propose the bill or action must second it before it can be debated or voted on.

The President shall serve a term of one month, beginning on the first day of the month and ending on the last day of the month. The President may be reelected without limitation.

### **(d) Elections**

The first round of elections shall consist of elections for the Senate. The candidates receiving the greatest number of votes shall be elected. Following the certification of the Senatorial election, the newly elected Senate shall convene and elect the Speaker of the Senate and the President. The President shall be elected by majority vote of the sitting Senators. The Speaker of the Senate shall likewise be elected by majority vote of the sitting Senators. Following the election of the President, the President shall nominate the Secretaries of Defense and Interior. Each nominee must receive confirmation by a majority vote of the Senate. All newly elected officials assume their positions on the first day of the following month.

If no candidate receives a majority of the votes of the sitting Senators, a second ballot shall be held between the two candidates receiving the greatest number of votes. Additional ballots shall be held until a candidate receives a majority.

**Voting:** Senate seats will be awarded via majority vote. Each citizen may cast one ballot for each Senate position being filled; if the Senate is composed of five Senators each citizen may vote for up to five different candidates. Citizens may not vote for the same candidate twice. The President will certify the election and will fill the Senate with the candidates who received the most votes.

Players holding the Citizen or Honored Citizen titles will be eligible to vote in first round of Senatorial elections.

## V. Judiciary System

The Saturnian Courts will be overseen by the Senate. Trials should be completed in a reasonable amount of time and be conducted in a fair and organized manner. The Saturnian legal code should strive to be simple and direct; the spirit of the law should take precedence over the exact letter of the law.

### (a) Pre-Trial Proceedings

To bring a grievance to trial, the prosecution must post a trial request in the #trial-requests channel in the Saturnian Discord clearly stating which person(s) or entity they are suing and which law(s) they feel have been broken. If the prosecution has been banned from the Saturn Discord they must find a legal representative that is not banned to represent them.

Once the trial request has been posted, the Speaker of the Senate must choose to either dismiss the case or allow it to go to trial. Once the Speaker makes their decision, they must notify the prosecution and the defendant by responding in the #trial-requests channel and pinging both parties. If the decision was to move forward with the trial, the court proceedings must begin.

At the start of a trial, the Speaker of the Senate must assign an impartial Senator to oversee the proceedings. Additionally, if any Senators are involved with either the prosecution or the defense they must recuse themselves. The Senator overseeing the proceeding should maintain order in the court and ensure that procedure is followed. Additionally, if either defense or the prosecution wish to do a trial via voice chat they must notify the Court so that arrangements can be made.

### (b) Trial Proceedings

**Opening Statements and Evidence:** Once a Senator has been assigned to oversee the trials and any Senators with conflicts of interest have been recused, the prosecution may make their opening statement. The opening statement should list what crimes they believe have been committed, any accompanying evidence, and witness testimony.

The defense may then provide a counter statement which should include a rebuttal to any evidence or witness testimony the prosecution provided. The defense may then provide their own evidence or witness testimony.

**Cross Examination:** Next, a period of cross examination will begin. The prosecution may cross examine the defense's witnesses and make counter arguments to any evidence or statements the defense has made.

Following this, the defense will have an opportunity to cross examine the prosecution's witnesses and make counter arguments to any evidence or statements the prosecution has made.

If any new evidence or witnesses are provided after the opening statement, the cross examination must be restarted.

**Closing Remarks, Verdict, and Sentencing:** Finally, the prosecution, then the defense will make closing remarks.

Once the closing remarks have been made, the Senate will enter deliberations. Once the Speaker feels that the trial has been sufficiently discussed they will call upon the Senate to vote either "guilty" or "not guilty" for each crime the prosecution listed. Once the Senate completes their vote or a 24-hour window has passed, the Speaker will post the result in the trial channel. All Senators who have been recused from the proceedings may not vote. Both the Speaker and the Senator overseeing the trial are eligible to vote.

The Speaker will then assign sentences for each crime the defendant has been convicted of and post the results in the trial channel. If the Speaker has been recused, then the President will assign the sentences and post the results.

### **(c) Military Tribunal**

Players in Saturn found affiliated with foreign groups that Saturn is at war with will be subject to a military tribunal. Any Saturnian who is Citizen rank or higher is exempt from Military Tribunals unless they have been found guilty of treason.

Players subject to a military tribunal may be removed from Saturn until the end of the war or conflict or until the Secretary of Defense chooses to stop the prosecution.

Once the conflict has ended, the Secretary of Defense, President, and Speaker of the Senate will deliberate, then vote on a sentence for each player subject to Military Tribunal.

## **VI. Sphere of Influence**

The Sphere of Influence of the Republic of Saturn will consist of all discords, bases, and assets claimed by the Saturnian government. In this sphere of influence, Saturnian law will reign supreme. All players who broke a law in Saturn's Sphere of Influence must be tried under Saturnian law unless an extradition treaty has been signed.

## **VII. Property**

### **(a) Definition of Property**

Property in Saturn can be owned by either a player who has guest status or citizenship, the federal government, or a state government. Property is defined as:

1. Any item that can be placed within a player's inventory
2. A structure
3. A clearly demarcated plot of land

#### 4. A Discord server

Property can not be modified, removed, or destroyed by anyone but the owner of the property or item unless consent has been given or the procedures in Forfeiture of Property have been followed.

### **(b) Private Organizations**

Private organizations, businesses, and communities may establish and operate independent Discord servers. Such servers shall be considered the property of their designated owner and shall not be considered property of the Republic merely because they operate within Saturn, are operated by Saturnians, or serve Saturnian citizens.

### **(c) Foreiture of Property**

Property may be seized via the following means:

**Dereliction:** Property may be derelicted if the property owner has not logged in for two weeks, or has voluntarily left the Saturnian Discord for more than one week, and has not been granted an exception by the President. To begin a dereliction, the following steps must be completed:

1. A citizen must place a sign in clear view on the property with the following information: “Dereliction notice”, the current date, and the discord handle of the citizen performing the dereliction.
2. The citizen performing the dereliction must ping the property owner in the Saturnian discord and state that they are derelicting the property.
3. The Secretary of the Interior must approve the dereliction.
4. The property owner may contest the dereliction by responding in the discord or by removing the sign on the property. The property owner will have one week to contest a dereliction.
5. If this does not happen, the citizen performing the dereliction assumes ownership of the property.

**Seizure of assets:** If a citizen is found guilty of treason the federal government will immediately take possession of all of the convict’s property. If a Guest belongs to a clan which Saturn declares war against, the federal government may exercise the option to seize all of said Guest’s property within Saturn.

**Eminent Domain:** The Secretary of the Interior may petition the Senate to utilize eminent domain to secure assets owned by a private citizen or guest. The eminent domain request requires a 2/3 majority vote from the Senate to pass. Once it does, the federal government must provide a reasonable time for the former property owner to collect their items and move. Additionally, the federal government must provide compensation for the move.

## **VIII. States Within Saturn**

States will act as administrative sub-groups allowing for unique communities and cultures to exist within Saturn while maintaining a unified national identity and government.

### **(a) States Rights**

States are permitted to govern and manage the following subjects within their Sphere of Influence:

1. An internal state government
2. Local base code, base permits, and derelictions of non-federal government owned properties
3. Public and private assets
4. Local holidays

In addition to these rights, each state will be permitted to have one non-voting representative in the Saturnian Senate.

### **(b) Restrictions on States**

1. States are not permitted to secede from Saturn
2. States may not engage in foreign treaties(declaring war, entering into an alliance, etc.)
3. All civil and criminal trials must be completed via the Saturnian federal court system
4. All members of a state will also be Saturnian Citizens, states may not grant citizenship
5. States are not permitted to make new States without Presidential approval.

### **(c) Formation and Dissolution of States**

To form a state, the citizen wishing to be the founder must develop a plan in conjunction with the Senate and President and determine the following:

1. What will the state do
2. Who will be joining the state
3. On what server will the state be
4. What will the local laws be (the founder should produce a document clearly defining them)

Once these topics are agreed upon, the President, Speaker of the Senate, and Secretary of Defense must unanimously approve of the formation of a state.

To dissolve a state, Presidential approval and a 2/3 majority vote from the Senate is required.

## **IX. Amendments**

This Constitution can be amended via the standard Senatorial bill proposition and voting procedure; however, instead of a simple majority, an amendment requires a 2/3 majority vote and Presidential approval. New amendments should be posted at the bottom of the Constitution for future reference.

## **X. Ratification**

This Constitution may be ratified with a 2/3 majority vote of the citizens of the Saturn Empire within the Saturn discord. The voting period will last 48 hours, once this period has elapsed, any player who has not voted will be counted as an abstention.

Upon ratification, this Constitution will immediately go into effect and all signatories will receive the rank of Citizen of the Republic of Saturn. Furthermore, an election will immediately be triggered with voting occurring within two days.

These projects vary in size and can be assigned by any government member. While there is no hard definition for what constitutes a small, medium or large project, Senators and Secretaries assigning these projects should attempt to follow precedent and work together to keep the projects similar in scope and effort. Additionally, citizens desiring advancements should develop their own projects and propose them to a member of government. When there is disagreement about the size of a project, the Senate may vote to approve or eject the project. Projects completed for States within Saturn shall count towards Public Works Projects. A non-exhaustive list of possible options for each size of public work projects is available below:
